Disclaimer

\$EBT Token (referred to as either "the token", "EBT") is the native utility token of EstoBit.com, designed to power our ecosystem and offer users exclusive benefits. The token is developed on the BNB Smart Chain and can be traded on crypto exchange platforms. As with all investments, it is important to understand the potential risks involved in \$EBT Token investment and to assess these risks in line with your investment objectives. Before trading or using the platform, it is critical that you understand these risks and manage your investments accordingly. If needed, it is advisable to consult your financial or legal advisors.

This disclaimer describes the general potential risks associated with crypto asset investment. The value of crypto assets can be very volatile due to financial market conditions, regulatory changes, and technological changes. Crypto asset regulations and compliance requirements change in every jurisdiction and these regulations or government actions can affect the value, legality, and use of crypto assets.

Technical issues, vulnerabilities, or network forks in blockchain technology and crypto asset projects can affect the value and functionality of tokens. At the same time, as the crypto asset market is relatively new, it is susceptible to market sentiment, speculation, and external factors. Therefore, investors should be aware of market dynamics and the potential for a decline in asset value.

Investors should evaluate the specific risks associated with the \$EBT Token project, including token utility, governance, and any unique features or risks identified in the project's whitepaper. Furthermore, investors should be aware of the specific risks associated with the \$EBT Token project, such as token use cases, corporate governance, and many other risks.

This disclaimer is for informational purposes only and does not constitute investment advice. Every investor's situation is different, and it is advisable to seek professional advice and conduct thorough research before making any investment decision. It should be remembered that past performance is not indicative of future results and all investments carry inherent risks that can lead to financial loss.

EstoBit LLC doesn't guarantee the accuracy, completeness, or reliability of the information presented on crypto exchange platforms and isn't liable for any loss resulting from reliance on such information.

By using the crypto exchange platform or investing in \$EBT Token, you accept the risks set out above.

Overview of EstoBit

EstoBit is a platform for crypto press release distribution helping startups gain exposure across major Web3 & Crypto news outlets. EstoBit (EBT) is a community driven token built on the BNB Smart Chain. The token completely decentralized, safe and secured aiming to getting everyone started in the crypto space.

We distribute PR news on topics such as new projects and token/coin launches, partnerships, and innovations in the Web3 space.

\$EBT is intended to be a BNB blockchain-based cryptocurrency. Transaction fees will not be charged above what is needed to transact on the foundation blockchain. \$EBT will be able to be transacted on any exchange that supports BEP20 tokens, as well as any wallets that support BNB tokens.
